

### **About the Award**

The Fulbright Visiting Scholars Award in Engineering at Florida Polytechnic University offers a distinguished opportunity to advance collaborative research in STEM disciplines between Spanish universities and Florida Polytechnic University.

The stay must have a minimum duration of one academic semester of the 2027–28 academic year and a maximum duration, subject to approval, of two consecutive academic semesters starting from the first semester of the 2027–28 academic year. In any case, the scholarship must be taken within these periods and cannot be postponed to another academic year.

The award is designed to support research in the following areas:

- Electrochemistry
- Materials Science
- Biotechnology
- Electrical Engineering
- Environmental Engineering
- Artificial Intelligence
- Cyber Security
- Data Science
- Photonics
- Nuclear physics

### **Program Duration**

#### For one-semester stays:

- First semester of the 2027–28 academic year: Between August 16 and December 15, 2027  
or
- Second semester of the 2027–28 academic year: Between January 7 and May 5, 2028

#### For two-semester stays:

- 2027–28 academic year: From August 16, 2027, to May 5, 2028

## **Eligibility Criteria**

Applicants must:

- Hold the rank of Assistant Professor, Associate Professor, or Full Professor at a Spanish university.
- Hold Spanish nationality.
- Have obtained a doctoral degree from a Spanish university prior to June 2019.
- Demonstrate proficiency in English (spoken and written), in accordance with the requirements outlined in Section B.5 of this call.
- Possess a strong record of peer-reviewed publications in relevant fields.

## **Award Value**

Each grant provides \$21,500 for a four-month (one-semester) residency. This funding includes:

- Round-trip airfare
  - Initial settling-in expenses
  - Monthly stipend
  - Research / Project -related costs.
- Fulbright Commission provides a health and accident insurance for the duration of the program.
